

Agent of Progress Communication, Marketing and Sales System Revenue Enhancement Consultant Loss Test

The Agent of Progress System Loss Test is a diagnostic assessment tool that identifies areas of ineffective revenue enhancement consulting practices and identifies opportunities to increase client revenues and consultant revenues by utilizing findings the 25-Year Agent of Progress Research Project.

1. Do you feel you are maximizing your consulting revenue potential? Yes ___ No ___
2. Do you know the brain function that is required to facilitate a sale? Yes ___ No ___
3. Do you feel you are maximizing your consulting clients' revenues? Yes ___ No ___
4. Will your current clients' marketing and selling methods increase both their business revenues and your consulting revenues? Yes ___ No ___
5. Do you provide your consulting clients with marketing and sales practices that will double their revenues? Yes ___ No ___
6. Do your sales presentation to prospects last less than 45 minutes? Yes ___ No ___
7. Do you know the communications difference between marketing and selling? Yes ___ No ___
8. Do you know the communications difference between education and selling? Yes ___ No ___
9. Do you know the one objection that prevents prospects from buying 95% of the time? Yes ___ No ___
10. Do you employ a memorized, sequential system to "sell" your prospects? Yes ___ No ___
11. Are you certain that the products, programs, and/or services that you sell help your prospects increase revenues? Yes ___ No ___

5 or more "NO" answers suggest that your current revenue enhancement consulting practices will cause the unnecessary loss of \$1,000,000, or more, of your career earnings.

The Problem:

Traditional marketing and sales methods communicate product information in ineffective ways that immobilize prospects, prevent sales, increase stress on sales personnel and decrease business revenues.

The Solution:

The Agent of Progress Marketing and Sales System™ modifies product messaging to eliminate barriers to sales, which decreases stress on sales personnel and increases business revenues.
